Music

Why are the **BLUES BROTHERS** so happy? Maybe their new movie, **THE BLUES BROTHER'S REVENGE**.

In New York City, the famous dancers, the **ROCKETTES**, were arrested for assaulting a police officer. Apparently, when the dancers began their well-known line-kick, **OFFICER EMMETT WALLING** was standing too close and received blows to the head and body. He is now in stable condition.

ILENE LAUPER has announced that she will be performing at the Garden State Arts Center this summer to help raise money for Ethiopia. She has not said what her performance will be, but inside sources say she will be mud wrestling with **MADDONA**.

HUEY MARIS survives near drowning. He commented, "If this is it, I want a new drug!"

Last night, **NICOLA JACKSON**, a New York model, was spotted in Paris at the Rive Gauche apartment of **SIMON LE BON**, toting champagne. **MISS JACKSON** flew in from N.Y. to celebrate the couple's recent engagement. An August wedding is planned.

At a recent press conference, the **GO-GO'S** announce their break-up.

Music

JOANNIE CHANG shows off a picture of her new boyfriend, **BILLY IDOL**. The couple have been together for nine months. What can be conceived from this?

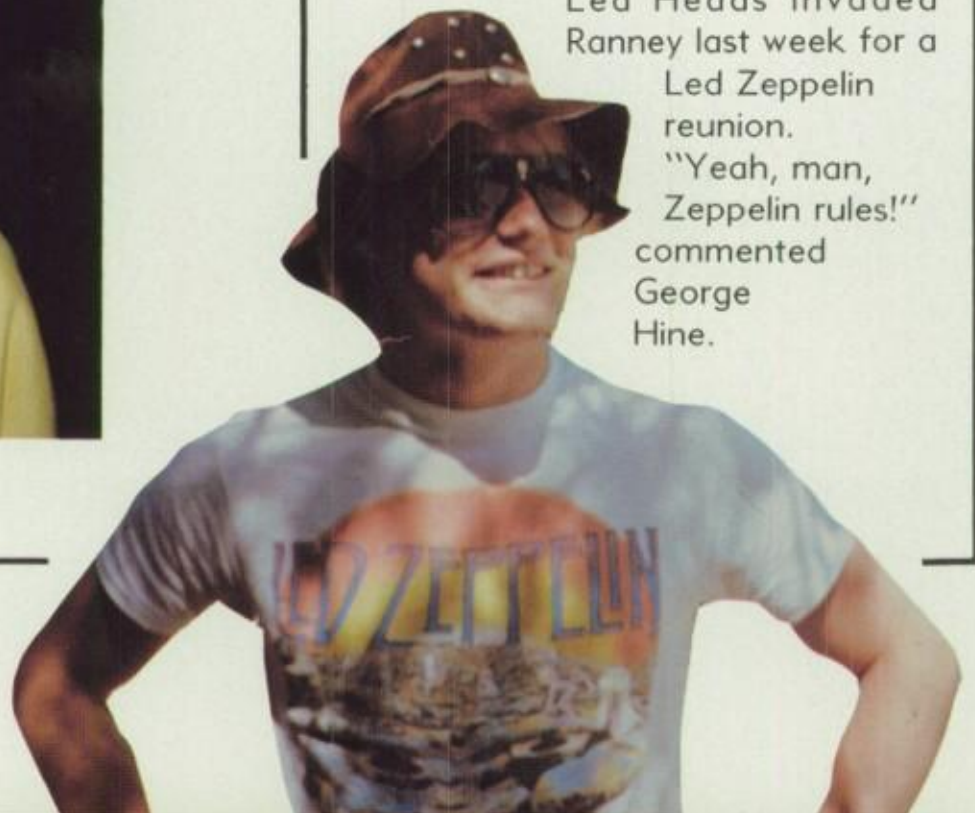

The **THOMPSON TWINS** celebrate the release of their new album, *Gone to the Dogs*, featuring songs like, "The Punk Puppy Generation", "I've got You on my Leash", and "Fleas Keep Biting Me".

BILLY IDOL recently judged a "sneer and Leer" contest in Manhattan. The winners, **MAURICE BRAKA** and **ADAM PLOTKIN** will receive an Idol crucifix.

Led Heads invaded Ranney last week for a Led Zeppelin reunion. "Yeah, man, Zeppelin rules!" commented George Hine.

What a Time!

The carnival is a big event at Ranney. What makes it so special?

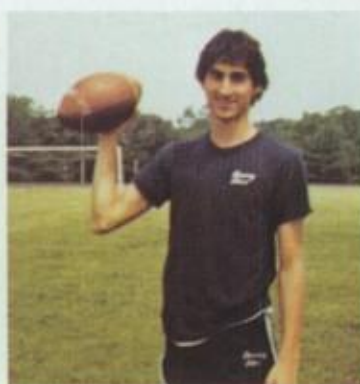

It is a time of fun, sharing, and friendship. Moonwalk, balloons, clown faces, foods, games,

prizes, and, of course, the dunking machine all make carnival day so exciting and delightful.

Mr. Pat O'Keefe, world famous hunter, celebrates the success of his safari in Kenya. He and his party have bagged three lions,

F O R T U N E

Although she often feels that she no longer teaches at our school but has become instead the official class accountant, Dr. Ivonne Vanderbilt has earned our gratitude for the guidance and assistance she has given us in our many fly-by-night schemes.

All her missed lunches and stolen free periods have helped us gain our great **FOR-TUNE**.

We will always remember her emphatic gesticulations and weary groans of a Uruguayan tongue sighing, "¡Hay queridas!" Never again will we forget to study our Spanish — we wouldn't want to cause a nuclear war!

We forever forgive her for returning Spanish I tests in Spanish III; after all, not many students have teachers who can act (she's the best **abuela** we know), can balance eggs (if only on the vernal equinox), and can handle subs,

Halloween dances, carnivals, and CLASSES too!

Dr. V., we feel that "una clase sin Usted es árbol sin hojas y sin fruto, y cuerpo sin alma. No hay en todo el mundo profesora más buena que nuestra, la sin par Señora Vanderbilt!"

P.S. Please give our regards to your fellow alumnus of SMU, Don Meredith.

COVER: The name of the game is magazines

After endless discussions and much contemplation, the Horizons' Staff of 1986 finally agreed upon magazines as the theme of our yearbook. This broad theme allows our yearbook to be a collection of memories captured in great candid shots and fascinating articles.

Ancient History class — What was so funny, Steven? It sure wasn't the bloody nose you gave me! All the farm noises that came out of the Biology classes, where we helped Dr. Anderson dot the i's on the blackboard. Chemistry with "Zero" and the Irish Spring jacket. "Steve, why don't you do something constructive and pick your toes." All those imitations that became famous — Tim "Ted, you worm," Ted "dish ish da shish", Mr. O "ar ar ar", Mr. Arnott "Eh, no et ot oot ot ot." The study hall phone "ooo", the tookie bird, Dr. Horn "Um, that's, um, a warning", and Steven "This is true." The compositions for Mrs. York that took weeks just for the outlines. The Chemistry test that contained only one question that Steven could answer — his name, and he still almost beat me. Geoff — thank you, thank you, gracias for trying to help with Chemistry, and don't forget our Spanish-Philosophy classes. Sam — maybe you can lose all of your nicknames that you didn't lose last summer for obvious reasons. Preeti — it's amazing how you did all of your homework in the hallways. Thanks to all my friends and teachers who helped me along, but most of all, thanks to my parents for the opportunity they have given me.

H.D.T.

5 years at Ranney made great by my five best friends — and even the captain. I couldn't ask for more. Let's always keep it this way! Breaking the juvies out of jail — "I'll go to jail on the weekends" — NYC trips — "You got all the change." — McGillicuddy brothers — The Cannon — shopping for cones — Spanish "trips" — "he told me to . . ." — "Let's sue for 25 G's" — "Gram' what'd you do" — Turk songs — Jam sessions — "Brian, give me your sneaker; I'll show you how it's done; man." — Agrogame — Of co-a-a-w-s-e — "Don't ___ with the Olds" — Pre-concert activities — "he stuck his face in there" — "who's that?" — eighth grade probation — Whippified — Fuzzy pencils — five rappin' white guys — trickmouse — Captain S. — Norwegian bear — Hose — Hose table — Hoserey beads — "Holy Hose!" — Honest Sanchez — Mel — Bri-guy — Moskey — Maury — Mo — Forget Schlep-rock — we need names, Dave — NE GATE!!! — mis-squeeze — "Let's pick up those beautiful girls and drop them off at their house" — Escape from Lakewood — The Feldman Trap — H.E.A.R. with our pal Bruce — save the trees! — give the captain a lung — P.B.C. All Night — The Eighth Grade Death Squad — Don's shower — party at B-mar — knock out drop — Pinchies — No Gravy, lots of salt, grape jelly, a glass of milk, and no plate —

After the fire, the fire still burns.

P.T.

Good Luck to the greatest class in Ranney history — we'll all make it big!

Mom and Dad — you are the best! I love you! I'll make you proud!

Expanding Horizons

The administration of our school has always been supportive of our efforts to "expand our HORIZONS." We may not always understand the reasoning behind each rule and regulation, but we are certain that all their hard work is for our benefit.

Our administrators watch over us like proud parents; we can be sure that for many years to come, they will still be telling parents and friends about the Class of 1986, forty-two percent of whom were honored by the National Merit Scholarship Committee. They will proudly proclaim, "not even Exeter, Andover, or the Bronx High School of Science has had more nominees!"

The Three Basic R's of Education

The Ranney School English Department has long recognized the importance of teaching students to communicate their ideas clearly and concisely. The foundation of this program lies in the three basic R's of education: Reading, wRiting, and Rewriting.

Although we may not always remember the subtleties of the English language, we will never forget the teachers who drilled each rule and each exception to the rule in our heads. Slightly eccentric, truly brilliant, and "very unique," these men and women have given us warm memories to last a lifetime.

PASCAL THE RASCAL

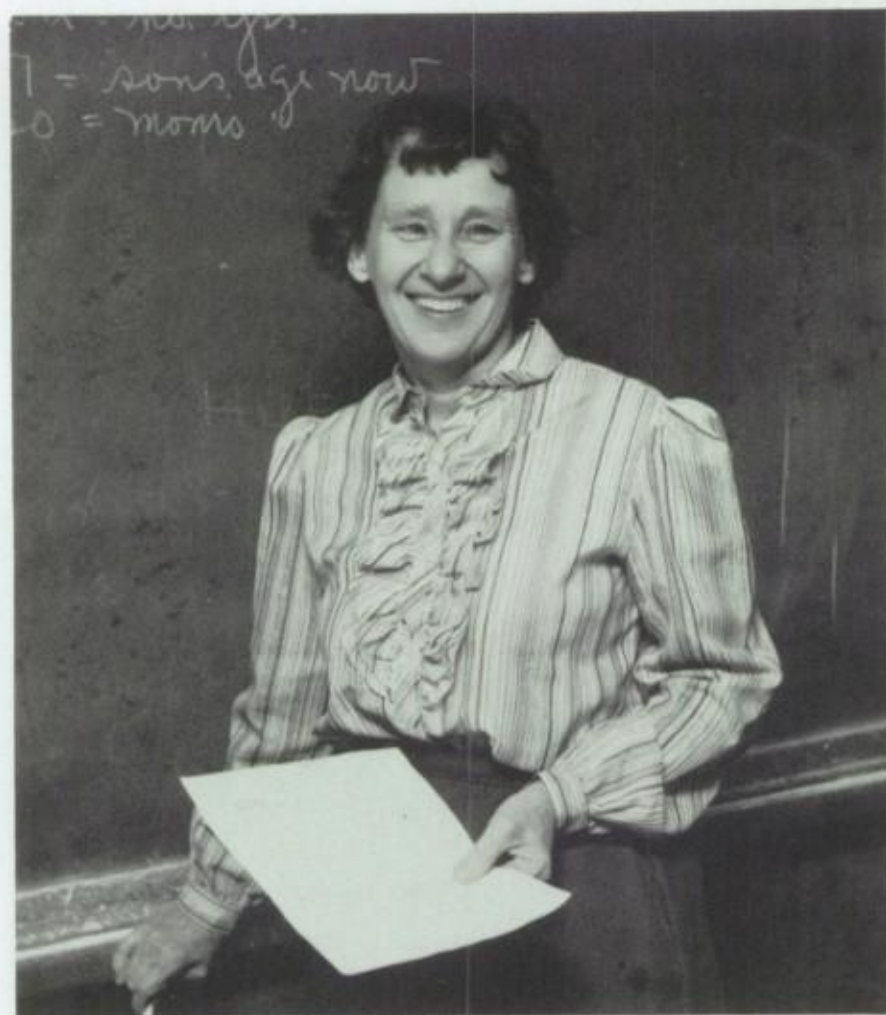

Erika Hammett, Chairman

Under the leadership of Mrs. Hammett, the math department remains one of the strongest in our school. Last year all of Mrs. Hammett's Math V students received the top score of five on their Advanced Placement exams — let's hope this year's class performs equally well!

We were delighted about Mrs. Kappel's rapid recovery and speedy return to teaching this year; we truly missed her constant pleading for our overdue tests.

Although Mrs. Hammett often stated despondently, "I'm not getting a response" after lecturing on differential equations at 78 rpm, and there may have been times when students stared at their teachers in great confusion, not once did the students or the teachers give up.

Despite all the frustrations we may have had with factoring, programming, graphing, or integrating, we have been taught to think clearly, to follow directions, and to "massage" our computer functions. We will always be indebted to our dedicated math teachers who have (hopefully!) instilled in us an appreciation for the value of mathematics.

History

The Ranney Address

One score and five years ago, the Ranney School made history. Well, at least it made a history department. And though many would contend that the history of the past quarter century has been nothing but bleak, the history department has been anything but that. Though the teachers occasionally curse uncooperative slide projectors and the absence of maps, they have infinite patience with their students. And though they "don't do battles" and sometimes stray centuries from the topic, we applaud their devotion and their enthusiasm. And though their students may little note nor long remember what they said here, they will always treasure the lessons they learned in analytical thinking and precise writing. And though the history department was not created of the students or even by the students, it remains always **for** the students and shall not perish from earth.

Foreign Languages

"Yak, Yak, Yak . . ."

The first word that comes to mind in describing our foreign language department is exceptional. From vocabulary and pronunciation to culture and civilization, our teachers make sure that we learn about every aspect of the French, Spanish, or Latin society. Few students are as well versed in foreign grammar and customs as the pupils at Ranney.

We were also fortunate enough to welcome Mrs. Marcatili to our language staff this year. Her Argentinian accent proved to be an interesting contrast with Dr. Vanderbilt's Uruguayan one.

In addition to providing us with a complete understanding of each country, our teachers also gave us many pleasing memories. Who would dare forget Dr. Pike's constant complaining that all we do is "yak, yak, yak" or his endless requests to "read it again — IN FRENCH!" Despite his eccentricities, many students felt fortunate and proud to have received at least ONE peanut, walnut, or red pepper — even if he believed that "eyes we have but we see not." Dr. Vanderbilt's students, on the other hand, were often reproached for their inability to say what they mean. Their many cries that they "meant that" were met with her cold responses about a President's responsibilities to prevent nuclear war.

Key to Success

Science at the Ranney School serves a dual purpose: to teach that which has already been discovered and to teach the techniques for understanding that which will be. All the traditional courses are taught in a way to inspire thought, not just memorization. Even if a student does not intend to pursue a career in science, he has at least learned the process of rational thought, which is essential for success in all professions.

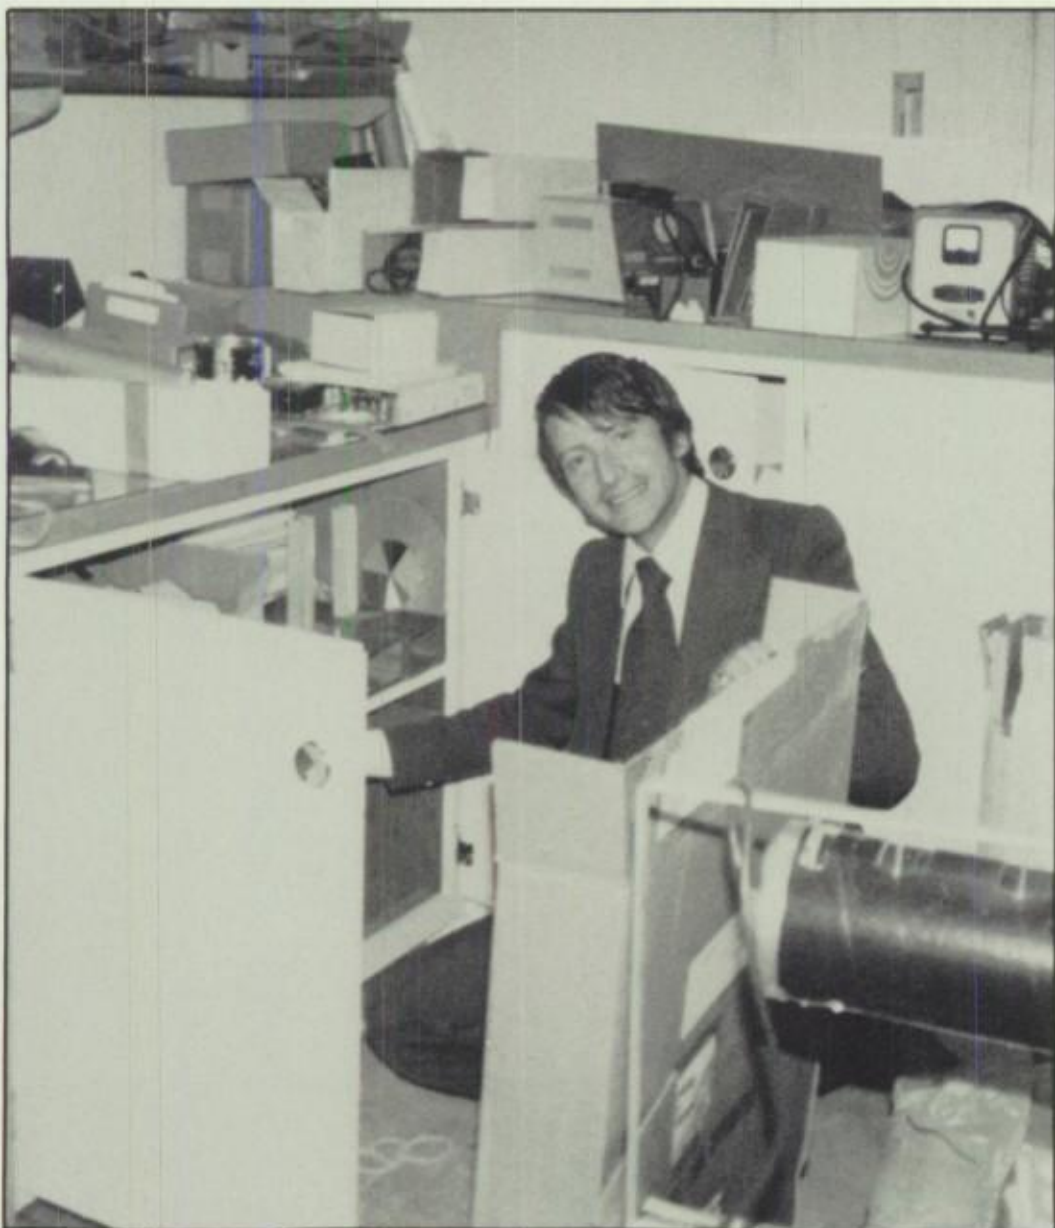

When students are graduated from Ranney, they take with them an assortment of pleasant if not unusual memories. They will always be able to reflect on teachers' requests for "QUIET, please" and to recall interesting, scientific techniques: "you take a little black bawks and add a little chauper . . ." Statements of such universal truths as "ontogeny recapitulates phylogeny" will haunt Dr. Anderson's Bio II students for many years to come.

These teachers have also given us the opportunity to "stand on the shoulders of giants;" to them we owe our thanks.

Creativity Cleanses

Pablo Picasso once said, "Art washes away from the soul the dust of everyday life." Whether we are involved with singing, dancing, acting, painting, or even typing, our art department certainly does add creativity and excitement to our hum-drum lives, allowing us to return refreshed to the rigorous academic curriculum at Ranney.

Despite the art department's small size, all its members are very active. With the support of our talented art instructors, students learn to explore their inner thoughts and to use their imaginations to create beautiful yet expressive pieces.

Physical Education

The Physical education department welcomed not only Mrs. Rubin, our new curriculum coordinator, but also a series of exciting changes; the new weight-lifting

Quality Control Department

Special Services, like a magazine's quality control department, keeps the standards of the 'company' high, making sure all 'products' meet the rigorous qualifications for marketing.

The members of this department individually inspect each item before shipping it out to the world market. Questions like "Where is your tie, young man?" and demands to "Open your mouth; are you chewing gum?" or "pull up those socks — NOW!" made sure each product was presentable. Additional requests to "get all necessary literature books by tomorrow" and to "sign in for attendance, study hall, driving, . . ." tested the reliability of each product.

These helpful people also get 'merchandise' to the appropriate places at the right times by asking "WHY haven't you sent in your applications yet?" and "Report to study hall — ON TIME!"

For all the times you've told us that "the locker combination is 29-34-13" and for all the times you've given us Band-aids and Tylenol ("because I'm allergic to aspirin!"), we thank you. We'd be in the "dead letter office" without you.

Handy Man

This year's maintenance and transportation crew has been awarded the POPULAR MECHANIX "Handy Men of the Year" award.

Due to all the new construction, the maintenance crew has had a difficult time keeping things in order. When pipes burst, windows broke, and grass needed cutting, our crew was ready to rush to our aid. From setting up for parent's night to washing towels for swimming, the maintenance team was always busy.

The transportation crew was also reliable in getting us to far-away sports events or hard-to-find restaurants. They were always tolerant when our soccer games went into double-overtime and patient when we stopped for dinner. Even with the world's noisiest and bumpiest buses, they managed to transport us safely and promptly.

Library

Grace under pressure

A prerequisite for a position on our library staff must be tolerance. Our librarians not only catalog books but also endure clouds of dust, crumbling walls, and tottering beams.

Even through the construction confusion they were always willing to help students find necessary resources efficiently.

Although the library remained closed for most of the first semester, by late February both the upper and lower floors were filled with shelves of new books.

With the addition of the sky lights, our library became a perfect place for students to concentrate on their studying or researching.

Changes

As they say, the only constant change is change itself. This year's construction and renovation projects for Ranney's Tinton Falls campus proved no exception to this rule.

Perhaps the most noticeable and exciting change is the addition of our new student commons building. Construction began during the summer of 1985, and although there were some minor delays, the project was finished towards the end of the 1985-1986 school year.

Students can enter the commons through two enclosed walkways connecting the barn and high school buildings. The outside of the student commons is covered with delicately chiseled stone, wood panels, and huge plates of glass.

Upon entering the lobby, one sees a beautiful chandelier made especially for the new building. To the left of the entrance is a staircase leading to the second level; the balcony overlooking the stairway is guarded by a shiny, brass handrail. There is also a small waterfall trickling through a corner of the lobby ceiling; the water collects in three brilliantly lit ponds located below the stairs.

On the ground floor of the commons are a trustees' lounge, two student lounges, a student supply store, a lecture hall, and bathroom facilities.

The trustees' semicircular lounge, located in the

front of the building, is lavishly decorated and serves as a formal conference room.

The book room was moved to the student commons and expanded into a large student store which distributes not only books but also school supplies and miscellaneous items such as bathing caps.

The student lounges,

two sunken "conversation pits," are next to two large triangular bay windows. A ledge along the perimeter of each lounge seats fifteen to twenty students. Between the two lounges is a pair of large glass doors opening onto an outdoor patio.

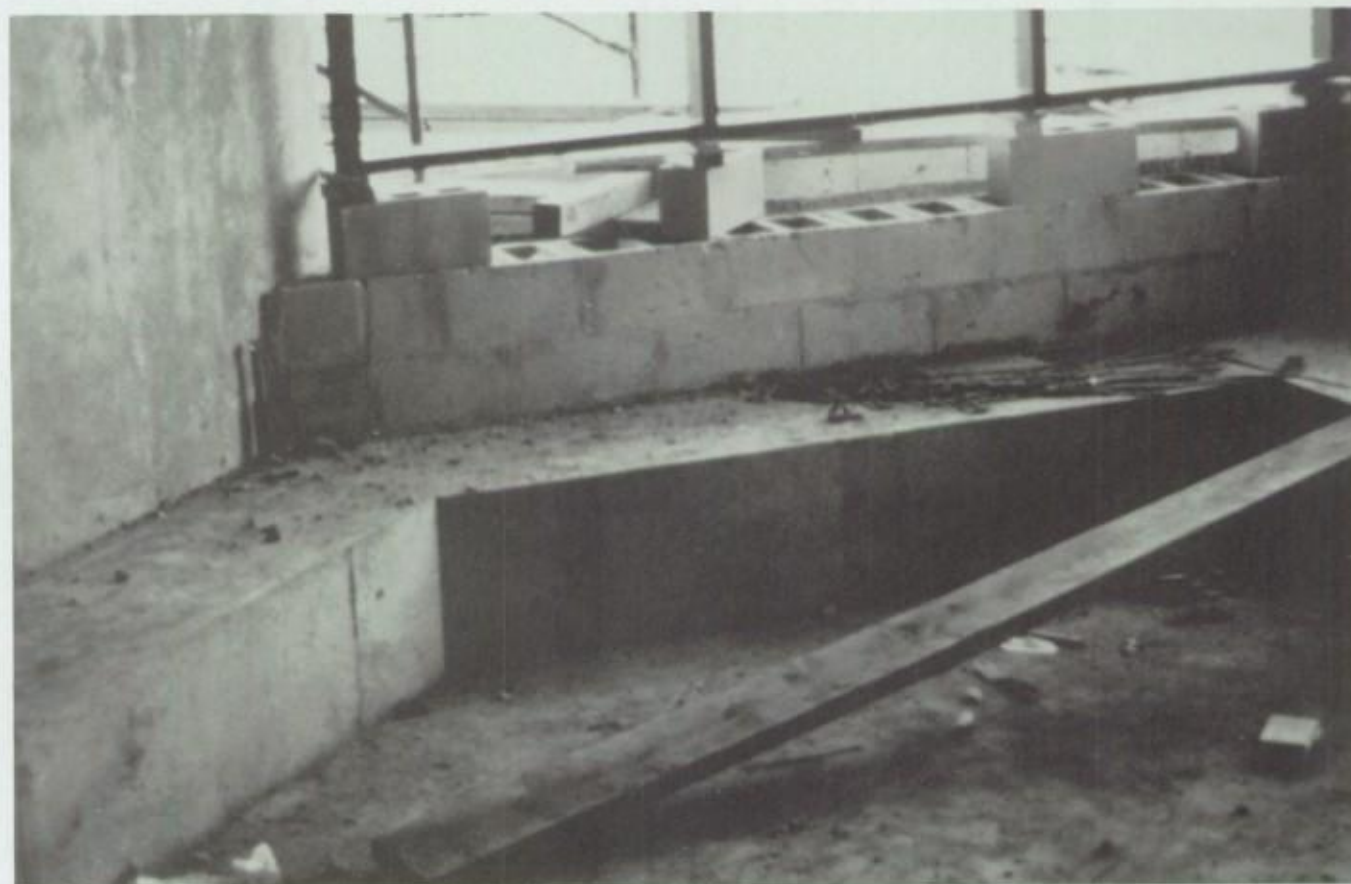

The lecture hall in the back of the building has a terraced floor; each of the five levels is higher than

the previous one, providing a clearer view for students seated in the back of the room.

The second floor of the commons is essentially one continuous room. Filled with tables of various sizes and shapes, this spacious hall can seat over 350 people and is used as a lunchroom and study hall. When the tables are removed and extra chairs are added, almost 600 people can be seated.

Also on this level are a service kitchen and a storage room. A curved counter in the kitchen can be used by students to distribute fund-raising lunches and by caterers to supply students with delicious Mexican enchilladas or exquisite French crepes.

Because the addition of the student commons created more available space

Ledge along the perimeter of the student lounge

in both the high school and the barn, many renovation projects are planned for this coming summer. The old book room will become an extension of the guidance office, and new, larger classrooms will replace the high school lunchroom/study hall, the boys' bathroom, and the barn lunchroom. The administration hopes to improve lighting in the new classrooms by adding skylights. The addition of these classrooms will vacate the smaller ones, leaving them open to departmental offices, student conference rooms, and HOPEFULLY, an official journalism room!

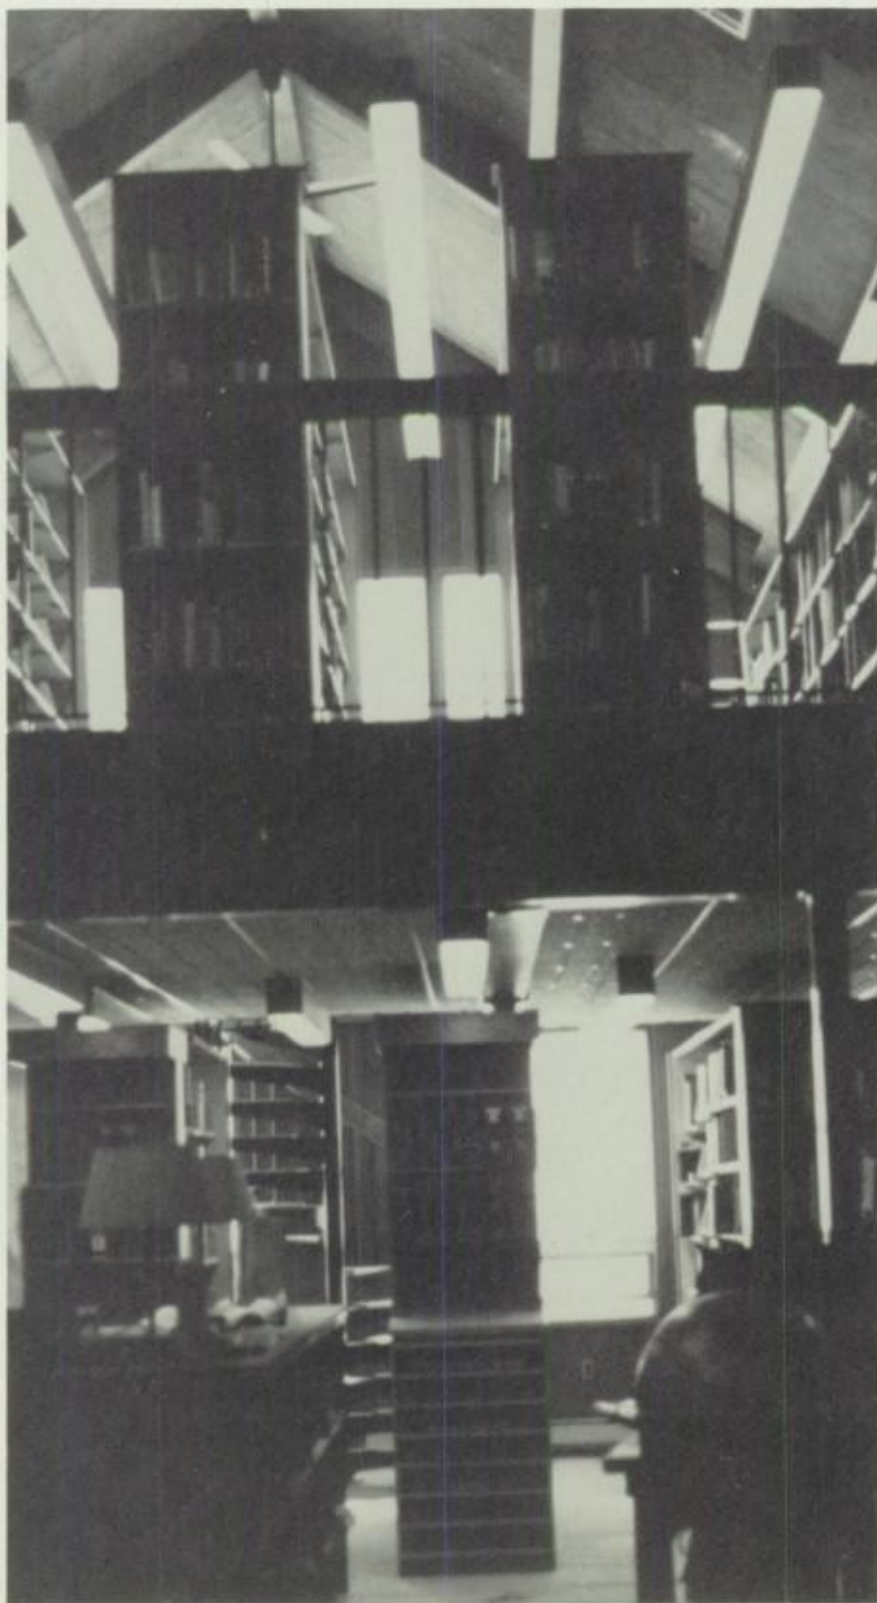

Another dramatic change occurring this year was the renovation of our library. Construction for this project began in May 1985, and by the second semester of the following school year, the new library was open for student use.

With the addition of a second floor, students now have access to over 15,000 volumes, which can be checked out at the new librarians' counter located in the center of the library.

There are now three times as many book stacks as before; the library's maximum capacity ranges from 30,000 to 35,000 volumes. To accommodate such a large number of books, there is less seating space — only twenty to thirty students can be seated comfortably at one time. Thus, the library is now a place for

serious study; the only large group tables are the index/encyclopedia reference centers. All other tables are individual work stations that resemble our

of fifteen skylights, a series of long, fluorescent lights in between stacks, and small, brass desk lamps, our library has certainly become a room of

Library nearing completion

old carrels.

Before construction for the library renovation began, many students commented that the lighting in the library should be improved. With the addition

"grand illumination."

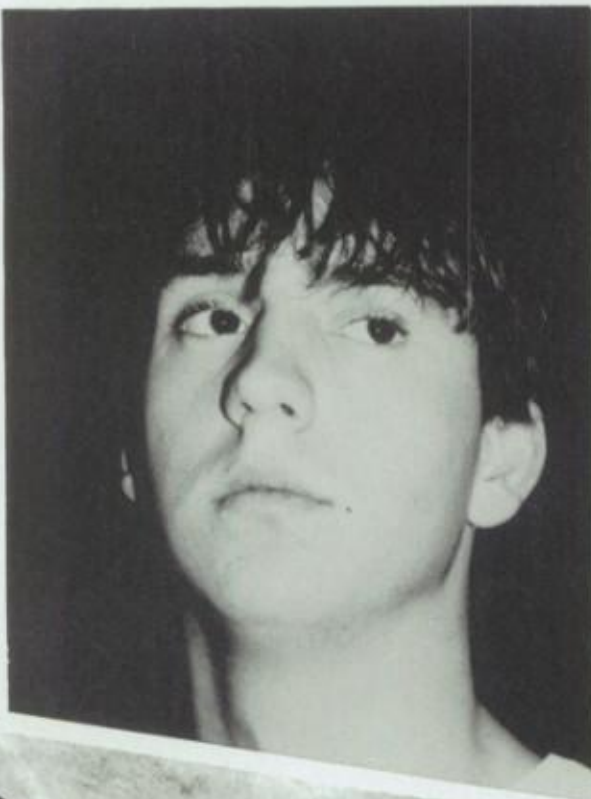

Another equally important though less obvious change was the institution of a seven period schedule.

By beginning school five

minutes earlier, ending eleven minutes later, and shortening class periods by four minutes, the administration was able to add a seventh class period. The seventy minutes following third period are separated into three time intervals. Middle and lower school students have lunch in the first interval and fourth period in the last two, while high school students have fourth period in the first two intervals and lunch in the last.

The new schedule allows students to squeeze in more Advanced Placement and elective classes; thus, they can better take advantage of our growing curriculum.

All the improvements that have taken place this year have certainly provided Ranney students with valuable opportunities to "expand their Horizons." We can be sure that there are many more changes to come, for our administration knows "when you're through changing, you're through"!

LIFE

OF THE RANNEY SCHOOL

ACTIVITIES

Student Government

Active Officers

Two basic administrative duties are policy and finance, and the student government at Ranney adheres to this dictum.

Despite shorter meetings due to the twenty-minute lunch periods, the Student Council accomplished more than ever before. Two eagerly accepted policy changes initiated by the council were the removal of the Walkman ban and the rule allowing honor roll seniors to drive.

While the Student Council was busy effecting these and other changes, all the class officers were actively raising funds. Whether it was the sophomores' chickens, the juniors' subs, or the seniors' pizza, all grades profited from the wares. Without the officers' dedication and effort, our memorable carnivals, dances, and proms could not be.

Ranney Boasts Prints Charming

Once again the **Horizons** staff overcame deadlines, missing photographs, and other minor calamities to capture the year's essence and create a treasury of memories. Their dedication is evident on every page. The **Torch**, a periodical plagued by its share of periodical problems (lack of film, lack of camera, lack of camera and film), nevertheless continued to print all the news that's fit. Not to be outdone, Ranney's literary magazine, the **RSVP**, finally settled on a theme and supplied a showcase for the school's writing and artistic talent. And the editors of the **Scorch**, Ranney's irreverent but never irrelevant newspaper, assembled yet another issue of the infamous lampoon, learning the administration can indeed take a joke and that on sunny days it can even take two jokes.

Muy Activo Club de Español

The Spanish club, under the supervision of Dr. Vanderbilt, sold donuts to raise money for its many activities.

In the fall, the club saw the movie "Don Quijote de La Mancha." Afterwards, they feasted on Casa Comida's tasty Mexican dinners.

Students also tasted a variety of savory Spanish dishes at the annual Spanish/French club fiesta.

During the club's spring trip to New York, members saw a Spanish play at the Repertorio Español and dined at one of many fine restaurants.

Notorious Gator Attends French Banquet

Members of the French club would like to thank their very fine president, Cathy Holst, for organizing not only donut sales every other week but also a very successful French club banquet. Who got the infamous "caked alligator"? Dr. Pike, of course. (Are you SURE it's not fixed?)

Students would also like to give Dr. Pike a thunderous round of applause for planning a "surprise" trip which turned out to be a great success in addition to our yearly trip to the Concours.

Note Bene

Led by one Consul, two Quaestors, and two Aediles, (or more commonly known as president, treasurer, and secretary) the Latin Club has been very active this year. The members raised money for their long awaited ski trip by weekly bake sales, and voluntary weekly reports on Roman culture primed the students for *Certamen*, an oral question and answer game in Latin that the club attended in early spring.

Performing Arts

Chorus

Yes, Virginia, there is a chorus at Ranney School. Organized by Mrs. Sims, the chorus consists of talented students from the lower school, the barn, and the high school.

In November the Ranney chorus delighted residents of the Ocean Grove Nursing Home with Christmas carols. The students later performed at *The Festival of Trees*, sponsored by the Junior League of Monmouth County.

Both the Christmas and Spring Pageants were a huge success; each of the proud parents who attended smiled and applauded for these gifted students.

Dramatic Revival

Under the direction of Miss Butow, drama at Ranney flourished as the school's first Dessert Theater was a sellout "Brod"-way performance. Treated to a variety of glazed pastries and seasoned performances, the audience literally got its just desserts. The theater was equally successful in the spring with Neil Simon's *Barefoot in the Park*. Meanwhile, Ranney's rejuvenated speech team, whose talent for talk brought them trophies, travel, and the pursuit of happiness, proved that silence is not golden. Journeying to Philadelphia and Boston, our speakers earned much fame (if little fortune) by remembering to be sincere, be brief, and be seated.

Sports Illustrious

Soccer

All-State Stars

Although the Varsity soccer team's season was full of ups and downs, the dedication of each member brought the team to the state tournament again for the fourth consecutive year. The team's most impressive victories were a 1-0 win over Saddle River and a 3-2 overtime triumph over Lakewood Prep.

Even more successful

were our junior high players; with a record as fine as theirs, our junior high team certainly deserved the honor of being the first junior high team ever to enter the state soccer tournament. Our skillful players won all but two games; both of which were played against the Tinton Falls team. Our team's most memorable games were those played against the Henry Hudson team. The first away game went into

overtime, and our team won with a very close score of 2-1; at the home game, we won with an amazing score of 6-1.

Division coaches were so impressed with the skills of our soccer players, they named George Hine, William Samson, Andrew Gosline, Louis Eichel, and Patrick O'Keefe to the Varsity All-State Team, and Brian DeGraw and Paul Kalac to the Junior High All-State Team.

"The agony of defeat" and "the thrill of victory" are both equally important elements in competitive sports; unfortunately, however, our girls' Varsity team experienced more of soccer's defeat than its victory.

This year's team was less successful than previous ones, because the season was undermined by sickness and injury. A large portion of the starting team was unable to play due to health problems. But despite a record not quite reaching the usual standards (a record which the yearbook committee carefully chose not to mention), the players managed to enjoy them-

selves.

How can we forget the infamous Gill St. Bernard game with overturned cars and violence in the john, or even better yet, our exciting bus rides home (thanks to our friends Don Hicks and Frank Austin who kept us pleasantly entertained!)

We thank Coach Tavares for many memories; we will always remember wind sprints, yells of "On the line, please!" MANY laps around the track, HIKA, Howdy Doody, trips to McDonald's, games against Peddie, and the B-52's. Our team may not have been the most athletic, but we sure were cute!

Tennis

Team Talk

When asked what he remembered most about playing on the Varsity tennis team, one student commented, "It provided me with an excellent opportunity to survey the Ranney School property. I never realized a casual jog could be so long!"

More memories worthy to be labeled "tennis team talk" include: getting stranded in the middle of nowhere after the Gill St. Bernard game, thinking that full court suicides were for basketball players, remembering the "guy" from Rutger's Prep,

reminiscing about the solemn victory at Admiral Farragut, and surprised shouts of "you hit the coach?!"

Although most players were too tired to comment, a few thanked Coach Smith for her valuable conditioning exercises. They said that "running up and down stairs can be really enjoyable if you get used to it." (We're sure that the coach will be happy to hear that! Good luck to next year's unsuspecting tennis players — they'll need it!)

Boys' Varsity Tennis Team Standing: Coach Smith, Andrew Dennis, Eugene Kang, Paul Stonick, Ian Drysdale, Peter Arbes, William Samson. Kneeling: Maurice Braka (co-captain), Nitin Kumar (co-captain).

Tennis Tidbits

From doubles "Divorce Court" to "Entertainment Tonight," the tennis team certainly had an eventful and triumphant year. In particular there was the defeat of Rutgers' Prep, an archrival. With the departure of five seniors, the team will look forward to former junior high players filling their places.

Some memorable tidbits are embarrassing meals at both McDonald's and the Old Union House, being hit with balls by the team's most rambunctuous player, and last, but certainly not least, buses with win-

dows that didn't open, although they were still functional for one purpose: viewing the full moon.

There were also various questions and groans: "Do we have to use these sponge balls?" "Serving AGAIN?" "NOT overheads!" These, however, turned into enthusiastic shouts of "GREAT serves," and "overheads, my favorite!" Whether they were sarcastic or otherwise, there was SOME truth behind them!

Finally, not to forget Sprint — R.I.P.

Fourth Row: Donald Donaldson, Justin Samson, Michael Rubin, Brian Winters (co-captain), Victor Nappe, Greg Younger, Adam Plotkin, Jesper Luth. Absent: Joannie Chang, Rumana Huq.

This year's Varsity and junior high swim teams attracted many newcomers; we are still unsure how these innocent boys and girls were convinced to enlist, but we believe the bait must have been irresistible!

Even after our new recruits were warned of a few "rare" cases of asphyxiation and "water on the brain," they still managed to hold out, even during the toughest of practices. We know they always remembered what lap they were on; who

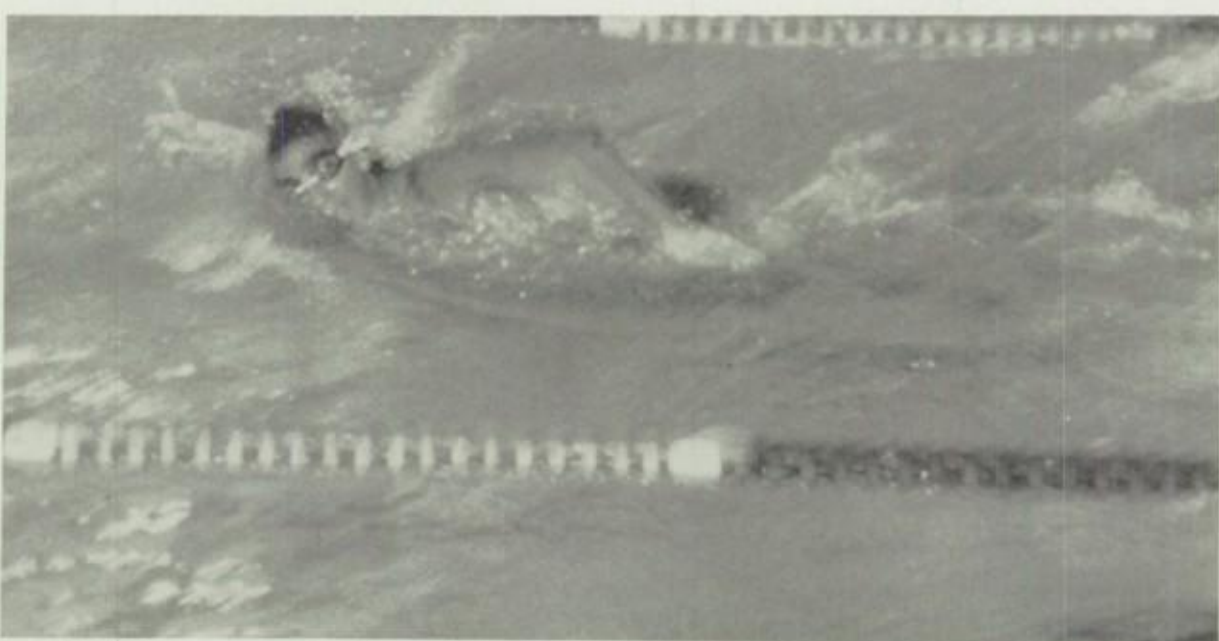

can forget the painful cries of "only 572 more to go!" mixed in with Coach Walling's gentle requests for "just a few more laps of butterfly, please."

Timing and coordination were also important in our daily routine as we dealt with bloody foreheads, locked doors, practice fatigue, and pre-meet jitters.

Yet despite all the undesirable aspects of swimming, the entire team persevered; some even managed to enjoy themselves. (Would you believe that?)

Swimming

Basketball

Sense of Tradition

Although quite a few changes were made in the basketball curriculum, it still retained a sense of tradition. The much welcomed changes arrived as new coaches were appointed for both the Varsity and Junior Varsity teams. The returning tradition was less pleasant; it was the revival of our classic losing streak. At any other school this would be a depressing note, but be-

cause the stress on athletics at Ranney is not only on winning but also on having fun, most of the players recall fond memories despite the teams' "unfortunate" records.

We remember Don's crush-grooving at away games, Taciturn Tony's short but sweet pep talks, the hundreds of fans that jammed into the gym to cheer us on, and our ace cheerleading squad that spurred our team to success.

This year was also one for the record books;

Coach (and DJ) Steve's six technical fouls in one game is believed to be a record-breaker, as is the cramming of two teams into one van (and they call US delinquent!) The "Chuck Johnson Award" for sportsman-like playing went to Rob Hoffman, who had the highest possession total of the year. Perhaps more than anything else, this season is best reflected by the famous words of Don Hicks: "Basketball is just like swimming but without the ball."

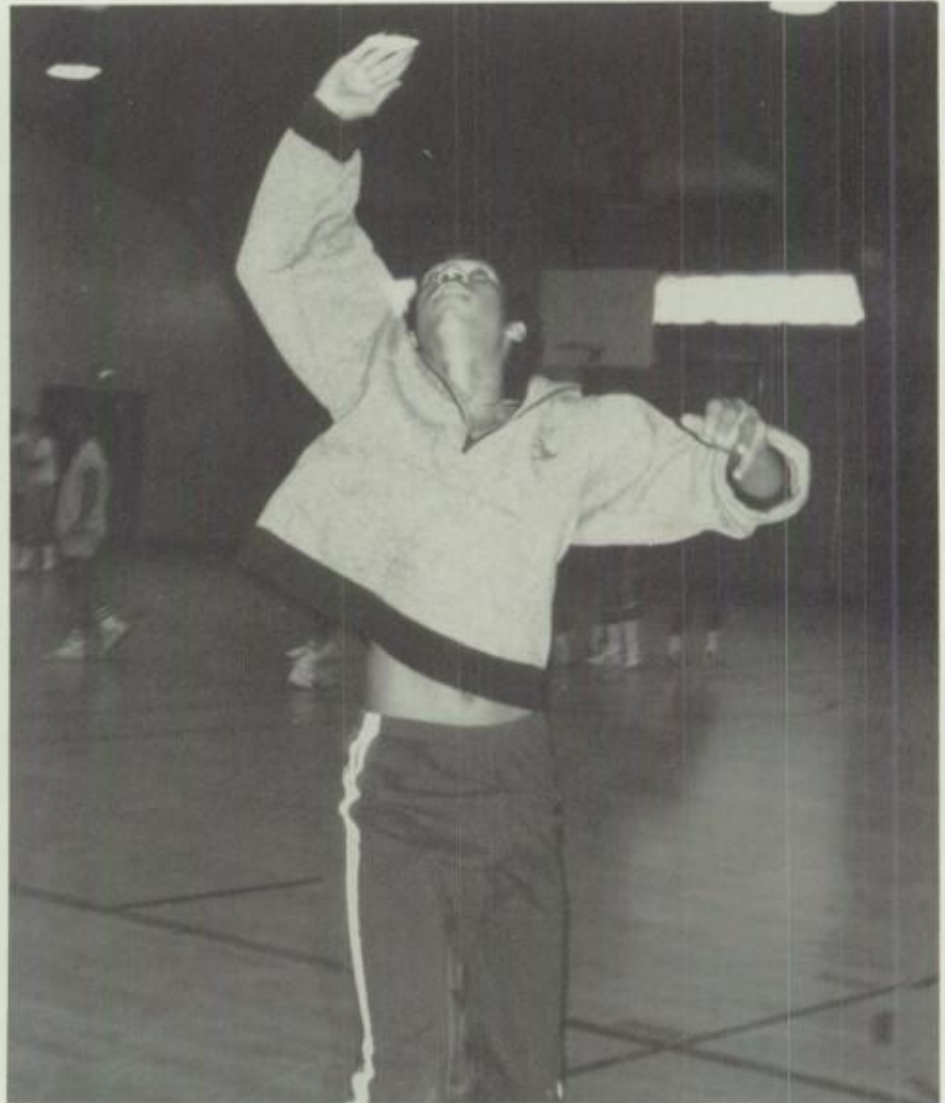

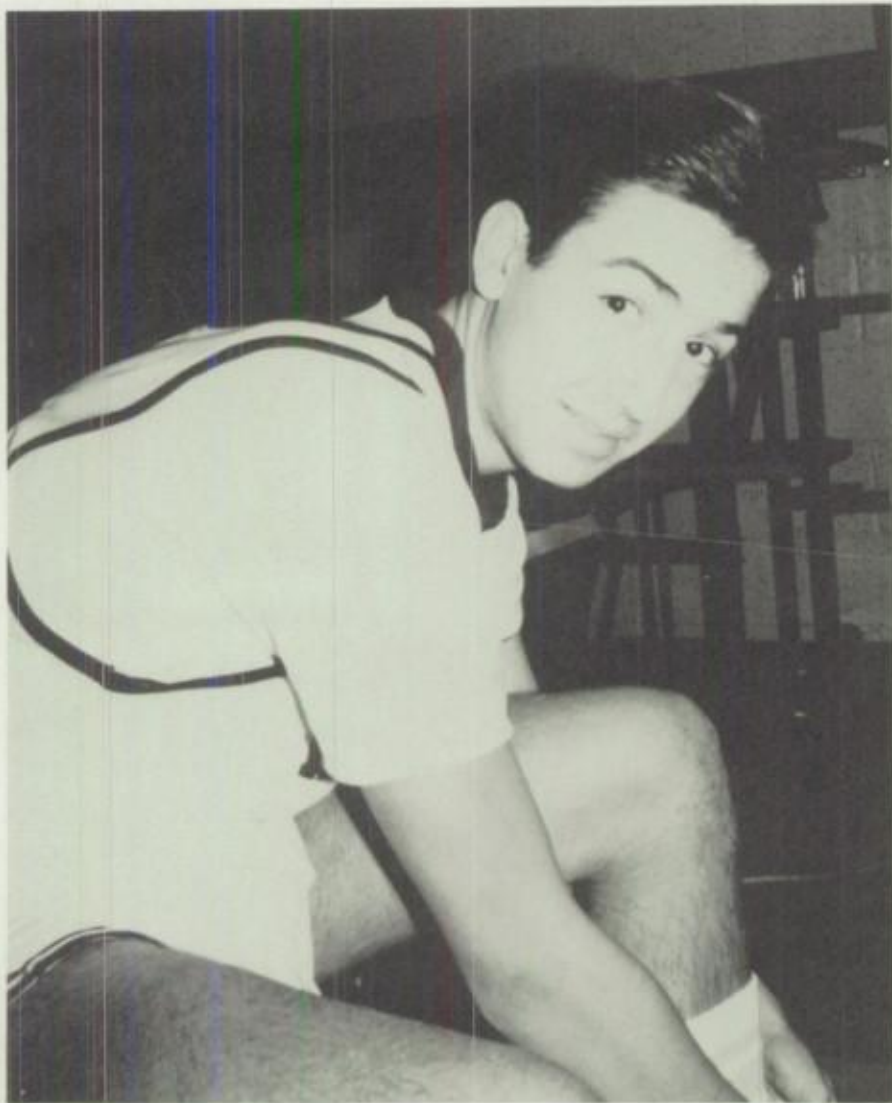

Boys' Varsity Basketball Team Kneeling: Ignacio Aliaga, Paul Stonick, Lenny Feiner, Sam Rosenhaus, Jordan Goldberg, Andrew Heitner. Baseball

Coach Surplus

Baseball practices on the Ranney diamond began quite promptly this year; THIS time, players were lucky enough to have a coach to help start off the season. (Last year's baseball team was not as fortunate; they began practices with none.) "saved the day" last year, returned as a full-time coach; his fearless assistant, Coach Malanga, also returned — much to

the surprise and joy of our players. (Perhaps this year's abundance of coaches makes up for last year's lack of them!)

Although our coaches returned, our manager did not and many thoughtful players commented that they missed watching their shapely manager sunbathe. However, fewer distractions meant better concentration; for the first time in MANY years, our baseball players could begin looking forward to the

state play-offs.

With the help of not ONE but TWO eager coaches, it's no wonder our valiant baseball players did so well. There were many fun practice sessions where they took grounders and caught pop-flies; the only suggestion one player had was to "lock up the geese before practices begin; doing sit-ups in their - - - is not fun at all!"

Varsity Baseball Team Standing: Coach Tombasco, Jason Rosenthal, Craig Cecere, Gary Fiscor, Daryl Caposello, Donald Hicks, Brian Winters, Jim Boggio, Mike McMennamen, Rick Boggio. Kneeling: Vincent Ernst, Bill Bainton (co-captain), Lee Feldman (co-captain), Craig Costanza.

Softball

United Again

Through plenty of tough practices and infinite amounts of patience, last season's fresh, new faces were quickly united again to form this season's team of outstanding players.

Each team member's optimism combined with Coach Tavares' excellent training helped to strengthen not only the team's record but also its unity. As one member stated, "The coach really stressed the importance of working TOGETHER this year. I think it's been pret-

ty easy because many of last year's players joined softball this year too."

Our enthusiastic coach also suggested a fun yet innovative technique to improve hitting and fielding skills; she was quoted as saying, "I'm glad the players took advantage of our new weight-training program during the pre-season." The weights must have helped a great deal; our team was most renowned for its fantastic pitchers and outstanding infielders!

Girls' Varsity Softball Team Standing: Lucy Martelli, Jodi Lawaich, Kristy Bogardus, Suzanne Spahi, Lisa Mohr, Shannon O'Keefe, Christine Matthews, Coach Tavares. Kneeling: Genie Edwards, Jean Dutton, Jeannine DeMontmorency, Lynn Accisano, Jeanetta Hicks. Sitting: Leslie DeLuca (co-captain), Michelle Mato (co-captain).

Cheerleading

Ten full-spirited, energetic girls make an exuberant entrance onto the court: "Are you ready? Let's go! S-U-P-E-R, super, super, that's what we are!"

The beginning of this cheer is definitely an understatement for this year's cheerleading squads. These talented ladies were chosen from among the largest group ever; it was obvious from the large turnout that Ranney's school spirit is quickly on the rise!

Our cheerleaders are not only enthusiastic, but

they are also dedicated and creative. Viki, the captain of the Varsity squad, incorporated a choreographed dance into their cheers and each cheerleader worked extra hours in order to perfect the routine.

The infinite attempts to stretch the "dreaded" splits and the endless hours to synchronize their movements were well worth it, for as one member exclaimed, "The rewards are tremendous, and we also have lots of fun!"

Junior High Cheerleading Squad Front row: Elyse Michnowicz, Neha Shah, Jennifer Kim, Kerri Belvin, Christine Grandinetti. Back row: Christie Scrano, Suzanne Jones. On shoulders: Julie Kuflik (co-captain), Lauren Winters (co-captain).

Cross Country

Aspiring Athletes

Under the new leadership of Coach David Locke, Ranney's cross-country team ran through a strenuous but rewarding season. The team's lead runner, Mike Rubin, took first place in several races this year while the rest of the team, runners new to the sport, steadily improved through many difficult practices.

Coach Locke rewarded these dedicated runners by inviting them to a barbecue at his home. Many of the team members attended, and all had a wonderful time.

Although the running team did not do as well as previous teams, its members will surely bloom into fine athletes in future years. As one optimistic member predicted, "This was a great year, but next year will be even better!"

FROM THE EDITOR

"Be creative!" appealed Mrs. Tomlinson, with the best intentions. All of us on the **Horizons** staff took your earnest advice to heart and here is the result; we hope you don't regret that lecture. Mrs. T, thanks for always being supportive of our many endeavors, restoring order in times of chaos, and for forever offering to "do type

sheets, layouts, ANYTHING!"

To the most dedicated (and the only?) artist I know, Lina, this yearbook deserves a place in your growing portfolio. Your artistic hands, trademarked replications, and copyrighted cover design added a special touch to our yearbook. How you ever survived our all-nighter (8 PM — 8 AM) and then made it to your first period class the next day. I'll never know!

Joannie, for all your absolutely "awesome" copy, your word processor (and thesaurus) should be bronzed. This is one of the few copy blocks you didn't count characters for — I did!

Dot, your creativity, imagination, and chimerical notions ("Umm, Lina, do you think you could draw some sticks of dynamite??") were inspirational; put those talents to use on the cir-

cus theme next year!

Amy, our unofficial typist and photocopier, you were always willing to take on ANY job, no matter how tedious. Your devotion was greatly appreciated!

Annitsa, our pre-professional photographer, nearly every picture in this yearbook (except those taken by Gerard) is one of yours; we are eternally grateful. And we are forever indebted to Gerard, who was always willing to search for missing mug shots, and shuffle picture dates and his own schedule to accommodate ours.

Will and Dave, the two people who made all our creative ideas practical by selling out the ads (AND an extra four pages), you are true businessmen. Will, I especially admire your single-handed efficiency in keeping meticulous books and doing impeccable layouts

(even the rough ones).

To all copy contributors — Preeti, for your flawless copy and numerous telephone consultations; Geoff, for your witty one-liners — you are all richly deserving of acclaim.

All those who helped us attain the perfection we were striving for: I can't offer you money, free pizza, or even a new Porsche (Will and Dave didn't sell that many ads); I can only offer my humble gratitude and appreciation, and hope that this yearbook, the product of all your hard labor, will be reward enough.

FROM THE ADVISOR

Ideally an advisor does just that, advises. In reality advisors are usually called upon to do much more. Inexperienced students often require a great deal of step by step instruction in all of the intricacies involved in putting together a yearbook.

This year's staff has been an astounding exception to the norm. Stacey NEVER had to be

told twice. (Occasionally she amazed her advisor by not having to be told ONCE!) Joannie was never late or inaccurate or banal. Annitsa and Kristy took wonderful pictures on demand and in excess. Lina carried the theme **all the way**. Will came through unassumingly and perfectly.

Every year one or two students carry the ball

and try to compensate for less organized fellows. This year's staff was truly a championship team. Those who enjoy this book, the fruit of their efforts, may recognize their success, but only their advisor can fully appreciate it.

Thanks guys.
